

FCA Secure Gateway access

Step-by-step guide

TEXA

CONNECTING YOUR DIAGNOSTIC TOOL FOR USE WITH SECURE VEHICLE GATEWAYS

FCA vehicles from 2018 and up are equipped with the Security Gateway (SGW). The SGW works as a “firewall” to prevent security breaches on all the on-board modules.

The SGW access for the FCA vehicles in North America* is provided by AutoAuth.

What you need:

- A compatible TEXA diagnostic tool with Wi-Fi access
- An authorized AutoAuth account(s)

CREATING AN AUTOAUTH ACCOUNT

1. The AutoAuth registration can be done from the AutoAuth website (<https://webapp.autoauth.com/login>) or from the link provided in the TEXA IDC5 software in figure 1.

Figure 1 - LOGIN in IDC5 software

* Valid for the United States, Canada and Mexico.

2. Click **Register**.

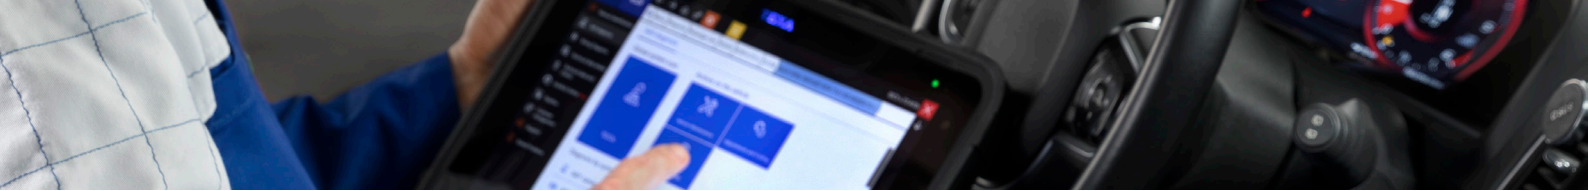

The screenshot shows the AutoAuth website's login and registration interface. On the left, the AutoAuth logo is displayed with the tagline "Providing an Independent Trust Authority for OEMs, Tools Vendors & Service Shops to securely service modern vehicles". The main content area features a "User Login" section with input fields for "Username or Email Address" and "Password", and buttons for "Forgot Password?", "Resend Confirm Link", and "Login". Below this is a "Need an account?" section with a prominent blue "Register" button. At the top right, there is a language dropdown menu set to "English". The footer contains a row of links: "About Us", "Contact Us", "FAQ", "Privacy Policy", "Cookies Policy", "Refund/Cancellation Policy", "W9 Form", and "System Information".

Figure 2 - Registration page

3. Complete the form with the requested information, check the Terms and Conditions box and **select Signup**. You will receive a confirmation email to validate the new account.

The screenshot displays the "User Signup" form on the AutoAuth website. The form is divided into two columns. The left column contains fields for "USERNAME" (Username), "FIRST NAME" (First Name), and "LAST NAME" (Last Name). The right column contains fields for "EMAIL" (Email), "CONFIRM EMAIL" (Confirm Email), "PASSWORD" (Password), and "CONFIRM PASSWORD" (Confirm Password). Below the form fields, there is a "Terms & Conditions" section with a checkbox labeled "ACCEPT". A small grey box below the checkbox states: "THIS SITE IS PROTECTED BY RECAPTCHA AND THE GOOGLE PRIVACY POLICY AND TERMS OF SERVICE APPLY." A blue "Signup" button is located at the bottom of the form. The footer is identical to Figure 2, including the AutoAuth logo, navigation links, and a "Privacy - Terms" icon in the bottom right corner.

Figure 3 - New account creation

4. Login to the AutoAuth portal and select the account type to complete the registration.

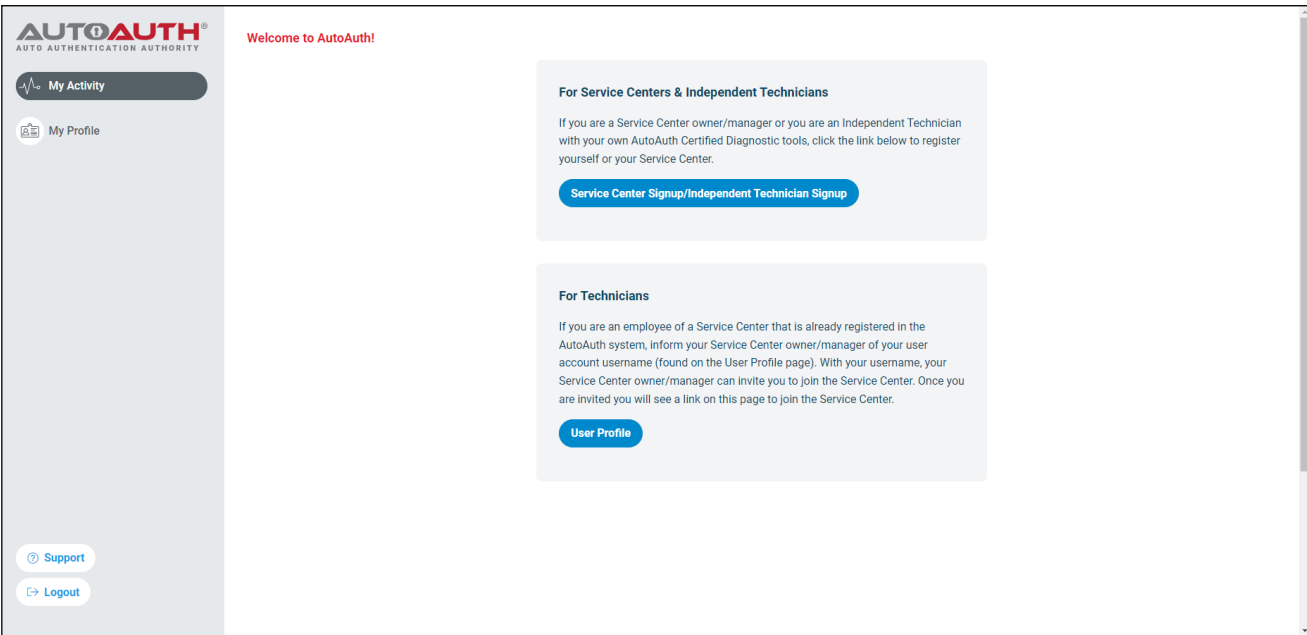

Figure 4 - Choice of account type

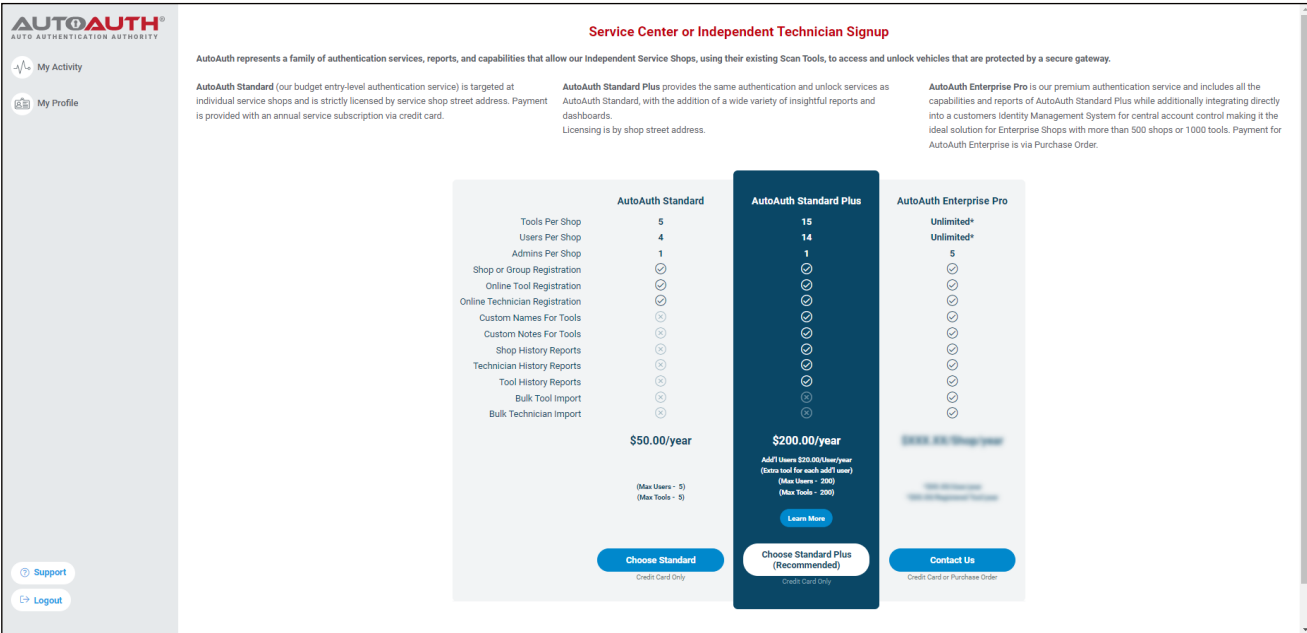

Figure 5 - Differences between accounts

5. Select Manage Tools and then Add tools.

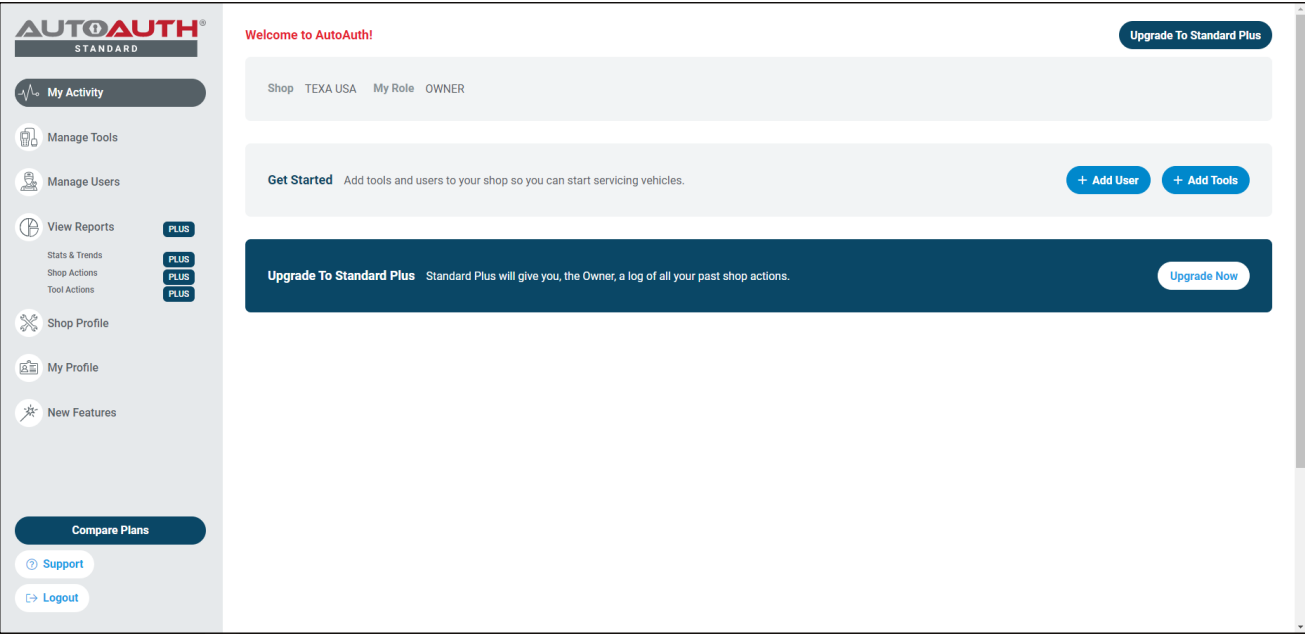

Figure 6 - Add tools

6. Select TEXA from the manufacturer list.

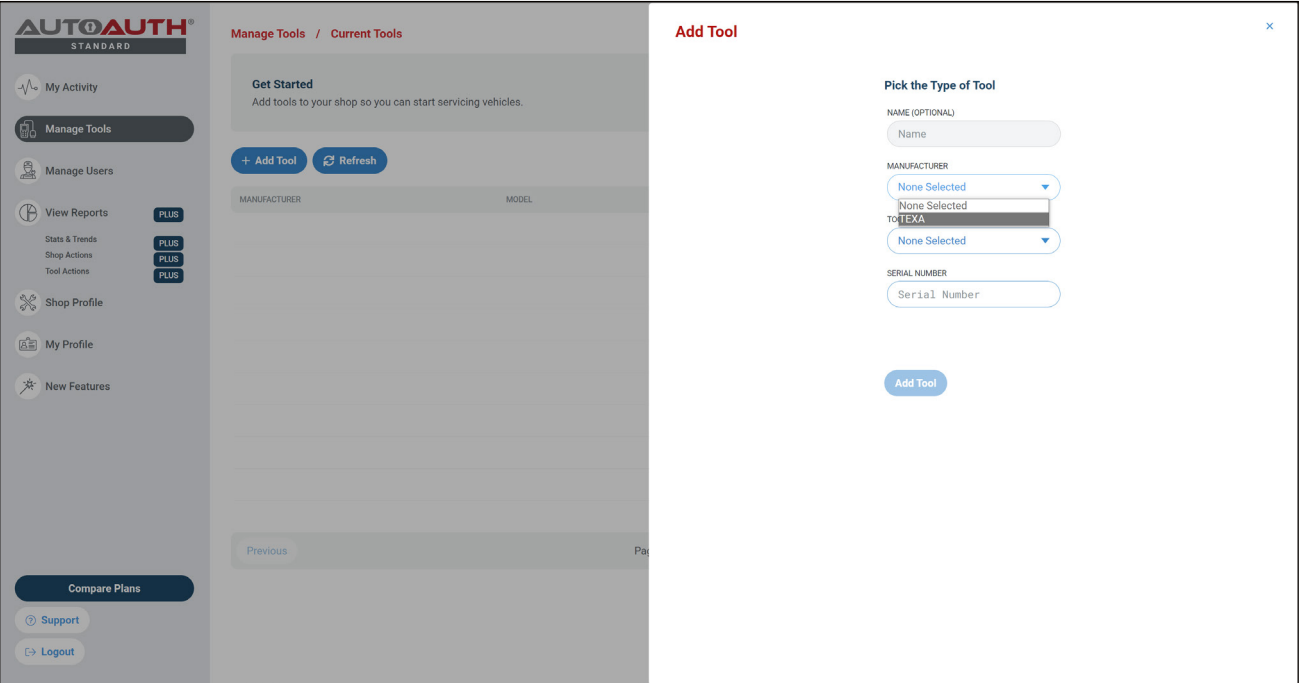

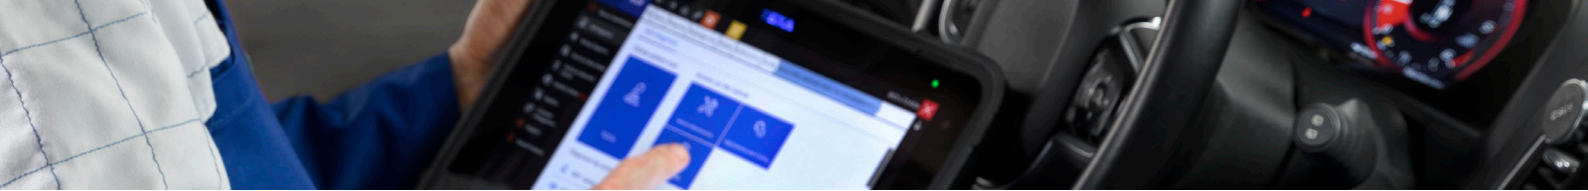

Figure 7 - Select the Manufacturer

7. Select All models.

Figure 8 - Select the Tool Model

8. Enter the tool serial number and select **Add Tool**.

Figure 9 - Tool serial number

9. The tool will be displayed in the tool list.

MANUFACTURER	MODEL	SERIAL NO.	ACTIONS
TEXA	All Models	DN1MTXXXXXX	Info Copy Delete

HOW TO UNLOCK THE SECURE GATEWAY WITH TEXA TOOL

10. Start the communication with the FCA vehicle using the TEXA IDC5 software

11. When the vehicle is equipped with Secure Gateway, IDC5 will notify you via a message (figure 11).

Click "CLICK HERE" to proceed with entering the credentials (figure 12) issued by AutoAuth to start unlocking the vehicle.
